Demography and Population

Population

Haskell County estimate population: 5,989
 Population Rank Among Texas' 254 Counties: 199
 Population per Square Mile: 6.5
 Area in Square Miles: 903.13

| Ethnicity | % of County |
|-------------------------|-------------|
| White persons | 92.7% |
| Black persons | 4.3% |
| American Indian/Alaskan | 0.8% |
| Asian | 0.6% |
| Two + Races | 1.7% |
| Hispanic/Latino | 24.2% |
| White Not Hispanic | 70.0% |

| Gender | % in County |
|---------------|--------------------|
| Female | 47.5% |
| Male | 52.5% |

| Age | % of County |
|-------------|--------------------|
| <05 Years | 5.3% |
| <18 Years | 20.9% |
| 18-64 Years | 57.7% |
| 65+ Years | 21.4% |

Source: www.census.gov

While the median age for Texas was 34.00 years in 2010, the Haskell County area had a median age of 45.00 according to the 2010 Census.

Population Gender

The gender distribution of an area can provide additional insight into the region's overall distribution in the population by male and female. Of the area's population, 3,104 were male which represents 52.6 percent and 2,795 were female which represents 47.4 percent. This compares to the statewide percentage of 49.6 percent for male and 50.4 percent for female.

Special Age Groups and Gender

Youth and Older Workers: Other age cohorts may be of special interest for Workforce Development Board's summer youth programs and older worker programs. The Haskell County region has 647 persons age 15-24 representing 11.0 percent of the population. This compares with 14.7 percent statewide. For the potential older age cohort, 1,580 persons or 26.8 percent are 55 or over in the Haskell County region based on the 2010 Census. This compares to 20.7 percent statewide.

Ages 25-44: If the population cohort 45 and over is higher than the state average, this suggests a stable, mature population comprised of mainly "empty-nesters," retirees and the aged. When the 25-44 age cohort is higher than the state average, this is a healthy economic situation since this group contains the greatest share of the labor force. Decreases over time in this group, especially when similar changes are not occurring statewide, can be an indication that people are moving out of an area they consider to be a poor labor market. In Haskell County the total number in the age groups of 25 to 44, was 955 or 16.2 percent. This compares to a statewide percentage of 42.5 percent based on the 2010 Census.

Ages 18 and Older: For the population generally considered in the ages to participate in the labor market, the total population who were 18 years and over totaled 18,279,737 in Texas which represented 72.7 percent of the total population. In this study area, the total persons in this age group was 4,671 or

79.2 percent of the total population. Within this age group in Texas the number of males in 2010 who were 18 years and over represented 8,962,031 persons or 35.6 percent of the total population while females age 18 years and over represented 9,317,706 or 37.1 percent. In the Haskell County area, males 18 and over represented 2,469 or 41.9 percent in comparison and females totaled to 2,202 or 37.3 percent.

Veteran Status: According to the U.S. Bureau of Census, the area had 4,657 persons in the population age 18 years and older in the year 2000. Of that number, 602 or 12.9 percent responded as being a civilian veteran, compared to 11.8 percent statewide. A "civilian veteran" is a person 18 years old or over who has served (even for a short time), but is not now serving, on active duty in the U.S. Army, Navy, Air Force, Marine Corps, or the Coast Guard, or who served in the U.S. Merchant Marine during World War II. People who served in the National Guard or military Reserves are classified as veterans only if they were ever called or ordered to active duty, not counting the 4-6 months for initial training or yearly summer camps.

Disability Status: From the 2000 Census, data on Disability Status were derived when respondents reported long-lasting conditions: (a) blindness, deafness, or a severe vision or hearing impairment, (sensory disability) and (b) a condition that substantially limits one or more basic physical activities such as walking, climbing stairs, reaching, lifting, or carrying (physical disability). Disability status was also derived if the individuals in the working age range of 21 to 64 years had a physical, mental, or emotional condition lasting 6 months or more that made it difficult to perform certain activities such as: (a) learning, remembering, or concentrating (mental disability); (b) dressing, bathing, or getting around inside the home (self-care disability); (c) going outside the home alone to shop or visit a doctor's office (going outside the home disability); and (d) working at a job or business (employment disability).

It was reported in the 2000 Census that the area had an estimated 1,327 persons residing there between the ages of 5 to 20 years of age with approximately 86 or 6.5 percent with a disability. In Texas, the percent with disabilities in this same age bracket was 7.9 percent. In the working age population group - ages 21 to 64 years, the area had approximately 2,922 persons, of which 651 were categorized to be in a disability status. This represented 22.3 percent compared to 19.9 percent in the state overall. For those persons in this age group that had a disability, approximately 290 or 44.5 percent were employed. For those who had no disability, an estimated 1,787 or 78.7 percent were employed. For the retirement age group of 65 years of age and older, 1,451 persons resided of which 654 were disabled. The percent of this age group with a disabled status was 45.1 percent and this compared to 44.8 percent in Texas overall.

Ages 65 and Older: For the population who are considered to be at the age of retirement or older - 65 years and older, the total number of persons in Texas was 2,601,886 or 10.3 percent of the total population in 2010. This region had a total of 1,286 or 21.8 percent in this older age group. In the same age group of 65 years and over, males in Texas represented 1,135,664 or 4.5 percent of the total population and females totaled to 1,466,222 or 5.8 percent, while in this study area, males totaled to 577 or 9.8 percent of all persons in this area and females represented 709 or 12.0 percent of all persons.

For other general and special population information from the 2010 Census as well as specific populations topics, link to <http://www.census.gov/census2000/states/tx.html>.

Population Projections

The Office of the State Demographer for the State of Texas distributes the most widely used population projections for Texas. Projection estimates in these tables and the methodology for migration scenarios have been revised as of 2008 by the Texas State Data Center and Office of the State Demographer - now housed at University of Texas San Antonio. Each projection series includes three scenarios resulting in three alternative sets of population values for the State and each county are presented in these projections. These scenarios assume the same set of mortality and fertility assumptions in each scenario but differ in their assumptions relative to net migration. The net migration assumptions made for four scenarios are derived from 1990-2000 patterns which have been altered relative to expected future population trends. This is done by systematically and uniformly altering the adjusted 1990-2000 net migration rates by age, sex and race/ethnicity. The scenarios so produced are referred to as the zero migration (0.0) scenario, the one-half 1990-2000 (0.5) scenario, the 1990-2000 (1.0) scenario, the 2000-2004 (2.0) scenario and the 2000-2007 (3.0) scenario.

The recommended scenario for most county based projection reporting used is believed to be the 0.5 scenario as most appropriate scenario for most counties in Texas. This scenario has been prepared as an approximate average of the zero (0.0) and 1990-2000 (1.0) scenarios. It assumes rates of net migration one-half of those of the 1990s. The reason for including this scenario is that many counties in the State are unlikely to continue to experience the overall levels of relatively extensive growth of the 1990s. A scenario which projects rates of population growth that are approximately an average of the zero and the 1990-2000 scenarios is one that suggests slower but steadier growth than occurred during 1990-2000 (For a more detailed discussion see <http://txsdc.utsa.edu>).

Using this projection scenario, the following table represents population projections for Haskell County as computed in 2008 by The Office of the State Demographer for the State of Texas:

Population Projections and Percent Change Since 2000*

| Year | Total | Pct Chg | Anglo | Pct Chg | Black | Pct Chg | Hispanic | Pct Chg | Other | Pct Chg |
|------|-------|---------|-------|---------|-------|---------|----------|---------|-------|---------|
| 2000 | 6,093 | --- | 4,632 | --- | 174 | --- | 1,249 | --- | 38 | --- |
| 2005 | 6,007 | -1.4 | 4,414 | -4.7 | 178 | 2.3 | 1,377 | 10.2 | 38 | 0.0 |
| 2010 | 6,002 | -1.5 | 4,236 | -8.5 | 190 | 9.2 | 1,538 | 23.1 | 38 | 0.0 |
| 2015 | 6,017 | -1.2 | 4,087 | -11.8 | 205 | 17.8 | 1,687 | 35.1 | 38 | 0.0 |
| 2020 | 5,969 | -2.0 | 3,928 | -15.2 | 212 | 21.8 | 1,791 | 43.4 | 38 | 0.0 |
| 2025 | 5,909 | -3.0 | 3,742 | -19.2 | 219 | 25.9 | 1,910 | 52.9 | 38 | 0.0 |

| | | | | | | | | | | |
|-------------|-------|------|-------|-------|-----|------|-------|------|----|------|
| 2030 | 5,884 | -3.4 | 3,602 | -22.2 | 224 | 28.7 | 2,020 | 61.7 | 38 | 0.0 |
| 2035 | 5,807 | -4.7 | 3,459 | -25.3 | 234 | 34.5 | 2,076 | 66.2 | 38 | 0.0 |
| 2040 | 5,783 | -5.1 | 3,342 | -27.8 | 243 | 39.7 | 2,161 | 73.0 | 37 | -2.6 |

* Anglo, Black, and Other excludes Hispanic counts.

For comparison purposes, the Texas population projections, using the same scenario methodology, are as follows:

Population Projections and Percent Change Since 2000*

| Year | Total | Pct Chg | Anglo | Pct Chg | Black | Pct Chg | Hispanic | Pct Chg | Other | Pct Chg |
|-------------|------------|---------|------------|---------|-----------|---------|------------|---------|-----------|---------|
| 2000 | 20,851,820 | --- | 11,074,716 | --- | 2,421,653 | --- | 6,669,666 | --- | 685,785 | --- |
| 2005 | 22,556,046 | 8.2 | 11,327,873 | 2.3 | 2,588,605 | 6.9 | 7,820,842 | 17.3 | 818,726 | 19.4 |
| 2010 | 24,330,646 | 16.7 | 11,533,976 | 4.1 | 2,754,751 | 13.8 | 9,080,459 | 36.1 | 961,460 | 40.2 |
| 2015 | 26,156,723 | 25.4 | 11,694,520 | 5.6 | 2,913,062 | 20.3 | 10,436,546 | 56.5 | 1,112,595 | 62.2 |
| 2020 | 28,005,740 | 34.3 | 11,796,448 | 6.5 | 3,052,417 | 26.0 | 11,882,980 | 78.2 | 1,273,895 | 85.8 |
| 2025 | 29,897,410 | 43.4 | 11,830,578 | 6.8 | 3,170,964 | 30.9 | 13,448,459 | 101.6 | 1,447,409 | 111.1 |
| 2030 | 31,830,575 | 52.7 | 11,789,274 | 6.5 | 3,268,623 | 35.0 | 15,140,100 | 127.0 | 1,632,578 | 138.1 |
| 2035 | 33,789,697 | 62.0 | 11,682,022 | 5.5 | 3,345,687 | 38.2 | 16,934,464 | 153.9 | 1,827,524 | 166.5 |
| 2040 | 35,761,165 | 71.5 | 11,525,089 | 4.1 | 3,403,163 | 40.5 | 18,804,311 | 181.9 | 2,028,602 | 195.8 |

* Anglo, Black, and Other excludes Hispanic counts.

County to County Migration

Out-Migration: Using Internal Revenue Service (IRS) information regarding changes in residences between two filing years 2008 and 2009, statistics regarding moving in and out of counties can reveal patterns of migration as well as patterns of out-of-state and foreign migration to and from selected counties. During this time Haskell County reported 1,884 total tax returns were matched to tabulate outflow migration. Of these returns approximately 8.1 percent showed a change in residences by moving out from their originating county in 2008 to another county in 2009. Of these who moved out of their original county, 91.5 percent moved to another county within Texas, while 8.5 percent moved to a different state but within the U.S. Those who moved from their originating county in the year 2008 to a foreign country in 2009 was approximately 0.0 percent.

The IRS county migration data reports income by the number of returns and the number of exemptions.

The number of returns - as a unit of analysis may be used as a proxy for household income and the number of exemptions may be used as a proxy for the number of individuals in a family. Using the number of returns for household income, the Haskell County overall has an average household earnings of \$38,826. Of those households which remained in the same area, an average reported non-migrating household income of \$39,563 during the period 2008 to 2009. Total income earned by 153 households leaving the region was \$4,661,000 which represents an average income of \$30,464.

The top 4 counties showing the most households and their average income leaving Haskell County to other counties during 2008 to 2009 were:

| County and State | Households Moving Out | Average Income Moving Out |
|---------------------------|------------------------------|----------------------------------|
| Taylor County, TX | 22 | \$32,364 |
| Lubbock County, TX | 15 | \$24,200 |
| Knox County, TX | 12 | \$28,167 |
| Jones County, TX | 11 | \$24,364 |

In-Migration: During the period 2008 to 2009, there were approximately 1,909 total tax returns were matched to calculate inflow migration. Of these returns approximately 9.1 percent showed a change in residences by moving in from their originating county in 2008 to a county in the study area in 2009. Of these who moved into the study area from another county, 83.2 percent moved from other counties in Texas, while 16.8 percent moved from a county in a different state but within the U.S. Those who moved into the study area during the 2008-2009 period from a foreign country was approximately 0.0 percent.

Using the number of returns as a proxy for household income, the Haskell County overall has an average household earnings of \$38,872. Of those households which remained in the same area, had an average reported non-migrating household income of \$39,563 during the period 2008 to 2009. Total income earned by 173 households entering the region was \$5,526,000 which represents an average income of \$31,942.

The top 3 counties showing the most households and their average income migrating into Haskell County from other counties during 2008 to 2009 were:

| County and State | Households Moving In | Average Income Moving In |
|--------------------------|-----------------------------|---------------------------------|
| Taylor County, TX | 28 | \$29,571 |
| Jones County, TX | 18 | \$29,667 |

Change in Aggregated Earnings: Gains and losses of residential earnings and buying power due to a migration can be reflected in observed differences in aggregate dollars entering and leaving an area. County to county migration information from the IRS shows a net change for the Haskell County region of \$865,000.00. A positive value represents an increase in earnings for an area and a negative value represents a loss of income during the 2008 - 2009 period.

Vital Statistics: According to the Texas Department of State Health Services for vital statistics for the year 2004, the Haskell County area had a total of 65 live births which represents a live birth rate of 10.9 births for every 1,000 persons in the study area compared to a statewide rate of 17.0 births per 1,000 persons in the population. The area had a total of 103 deaths representing a rate of 17.3 for every 1,000 persons compared to a statewide rate of 6.8.

Employment

Civilian Labor Force (CLF): The most recent civilian labor force estimates from TWC for Texas statewide in May 2012 is 12,606,775 which is an increase in the labor force of 182,188 persons since May 2011. This represents a 1.5 percent change in Texas during this time period. These estimates are not seasonally adjusted. Haskell County had a civilian labor force of 3,242 for May 2012 which was a change of 2 in CLF since May 2011. This change represented an increase of 0.1 percent for the study area. For another glimpse into TWC/LMI's Texas and County information, link to: <http://www.tracer2.com/cgi/dataanalysis/AreaSelection.asp?tableName=Labforce>.

Economic Diversification: Relative to the Texas economy, the LMCI economic diversification index measures the degree to which a county economy is diversified. Significant concentrations of employment in only one or two industrial sectors makes an area less diversified and more susceptible to widespread economic decline should a key sector suffer a significant loss. While economic diversification or a balanced distribution of employment across all major industry sectors, is generally desirable, in some cases, especially where a region is exploiting a comparative advantage (such as access to raw materials, access to transportation routes, etc.) a statistically diverse economy does not necessarily correlate with higher growth. Of the three levels of diversification ranging from below average, average and above average, Haskell County had an economic base which is of average diversity.

Employment By Major Industry Sector: The most recent employment data from TWC by major industrial sector for Haskell County compared to Texas are shown below in a table for two years. The Department of Labor calls these major categories "Super Sectors". One advantage in reviewing employment changes at broad industrial levels is that it allows for a unique snapshot of major differences in the total

employment for a selected study area when compared to any larger statewide trend. When employment changes at a higher rate than the state, there may be comparative advantages in the local economy which are driving these changes. Conversely, when change is at a lower rate, then the Super Sector is showing less change in comparison to the state and may consequently have a smaller comparative change impact.

| Haskell County Industry Sector | AREA EMPLOYMENT | | | | STATEWIDE EMPLOYMENT | | | | US EMPLOYMENT | | | |
|--|-----------------|-----------------|------------|------------|----------------------|-----------------|------------|------------|-----------------|-----------------|------------|------------|
| | 2010 3rd Qtr | 2011 3rd Qtr | Emp Chg | Pct Chg | 2010 3rd Qtr | 2011 3rd Qtr | Emp Chg | Pct Chg | 2010 3rd Qtr | 2011 3rd Qtr | Emp Chg | Pct Chg |
| Total, All Industries | 1,892 | 1,992 | 100 | 5.29 | 10,172,064 | 10,434,252 | 262,188 | 2.58 | 127,653,230 | 129,386,158 | 1,238,338 | 0.96 |
| Natural Resources & Mining | 201 | 200 | -1 | -0.50 | 265,882 | 298,224 | 32,342 | 12.16 | 1,942,433 | 2,038,712 | 49,203 | 2.66 |
| Construction | NA | NA | NA | NA | 604,529 | 606,705 | 2,176 | 0.36 | 5,913,961 | 5,914,110 | -63,755 | -1.11 |
| Manufacturing | NA | NA | NA | NA | 818,521 | 847,734 | 29,213 | 3.57 | 11,625,347 | 11,852,448 | 217,317 | 1.89 |
| Trade, Transport. & Utilities | 395 | 436 | 41 | 10.38 | 2,143,082 | 2,202,201 | 59,119 | 2.76 | 25,740,265 | 26,105,630 | 315,529 | 1.23 |
| Information | NA | NA | NA | NA | 202,207 | 203,238 | 1,031 | 0.51 | 2,850,053 | 2,819,004 | -31,210 | -1.09 |

| Prof., Business & Other Svcs | NA | NA | NA | NA | 1,295,982 | 1,367,174 | 71,192 | 5.49 | 17,085,848 | 17,654,216 | 567,084 | 3.36 |
| Education & Health Svcs. | 482 | 450 | -32 | -6.64 | 2,409,110 | 2,432,847 | 23,737 | 0.99 | 28,768,729 | 29,056,521 | 220,420 | 0.72 |
| Leisure & Hospitality Group | 103 | 95 | -8 | -7.77 | 1,048,766 | 1,087,138 | 38,372 | 3.66 | 14,008,113 | 14,300,161 | 269,835 | 1.96 |
| Other Services | NA | NA | NA | NA | 298,005 | 305,273 | 7,268 | 2.44 | 4,442,871 | 4,495,171 | 52,466 | 1.19 |
| Public Administration | 100 | 103 | 3 | 3.00 | 457,522 | 442,736 | -14,786 | -3.23 | 7,622,849 | 7,417,090 | -432,784 | -5.54 |

Compared to Texas, the table above shows employment sectors in Haskell County changed at a higher rate for Trade, Transport. & Utilities and Public Administration between 3rd quarter 2010 and 3rd quarter 2011. During that same time period, area employment for Natural Resources & Mining, Education & Health Svcs. and Leisure & Hospitality Group changed at a lower rate when compared to Texas.

Occupations: The best source of occupational information at the county level is from the 2000 Census. The total number of persons 16 years of age or older who were employed in Haskell County during the 2000 Census was 2,417. The following presents a table of those employed by occupational categories for this region compared to statewide percentages:

| Occupational Categories | Count | Area Percent | Statewide Percent |
|--------------------------------|-------|--------------|-------------------|
| Mgmt., Professional Occs. | 839 | 34.7 | 33.3 |
| Service Occupations | 431 | 17.8 | 14.6 |
| Sales and Office Occupations | 479 | 19.8 | 27.2 |
| Farming/Fishing/Forestry Occs. | 108 | 4.5 | 0.7 |
| Constr., Extraction Occs. | 218 | 9.0 | 10.9 |
| Production, Transport. Occs. | 342 | 14.1 | 13.2 |

Class of Worker: Another way to view the types of workers in an area's labor force is by class of worker. According to the 2000 Census, the area had 1,520 employees who were private wage and salary workers representing 62.9 percent of all workers. The region had another 480 persons who were government workers or 19.9 percent, 402 who were self-employed workers or 16.6 percent and 15 who were unpaid family workers representing 0.6 percent. This compares to the Texas statewide distribution of 78.0 percent for private wage and salary workers, 14.6 percent for government workers, 7.1 percent for self-employed, and 0.3 percent for unpaid family workers.

Unemployment: According to TWC unemployment figures for May 2012 Haskell County had an unemployment estimate of 160 persons which represents a rate of 4.9 compared to a Texas statewide unemployment rate of 6.9 for the same month. For the study area these estimates represent a decrease from May 2011 unemployment rate of 5.0 percent. The Texas statewide unemployment rate was 7.8 for May 2011. For the latest unemployment rates, see TWC's LMI website - Unemployment Rates (LAUS): <http://www.tracer2.com/cgi/dataanalysis/AreaSelection.asp?tableName=Labforce> and for a description of methodology link to: <http://www.tracer2.com/article.asp?ARTICLEID=148>.

Reporting Establishments: The TWC indicates 270 business reporting units operating in Haskell County in the third quarter of 2011 with an average of 7.38 workers per unit. Average firm size makes a difference for job hunting and job development strategy because larger firms tend to have better defined ports of entry and in-house training capabilities. Although definitions vary greatly, small business can be defined as less than 50 workers and medium sized is 250 or less. The Texas average is 17.89 workers per unit. Regions with higher than average number of workers per unit tend to be dominated economically by a few very large employers.

Commuting to Work: Commuting to work for workers 16 years and over has a number of implications for transportation and municipal services study. Haskell County had a total of 2,018 or 85.5 percent who drove their car to work alone, 185 or 7.8 percent who car pooled, 2 or 0.1 percent used public transportation, 49 or 2.1 percent who walked to work, 35 or 1.5 percent of regional workers who used other means to work, and 71 or 3.0 percent who worked at home. These methods of commuting to

work compare to the Texas statewide results by: car alone (77.7%), car pool (14.5%), public transportation (1.9%), walked (1.9%), other means (1.3%), and worked at home (2.8%). The average travel time to work in minutes was 19.40 for the region as compared to an overall statewide average of 25.4 minutes.

Employers by Employee Size Class: Employer contact information and employee size ranges are collected and updated by the Analyst Resource Center – Employer Database - InfoGroup/Government Division. The most current release is a product called the Employer Database 2012 2nd Edition. This product shows that the area had approximately 46 establishments which employed 10 or more employees. Of these employers, approximately 0.0 percent employed over 1000 employees. 0.0 percent employed between approximately 500 and 999 employees, 4.3 percent employed between approximately 100 and 499 employees, 6.5 percent employed between 50 and 99 employees, 41.3 percent employed between 20 and 49 employees, and 47.8 percent employed between approximately 10 and 19 employees.

Rule Co-op Gin & Elevator

Steele Precision Machine

Income

Personal Income: According to the most recent data released by the BEA 2005, Haskell County's total personal income, excluding farm, was \$126,680,000 which represented an increase of \$6,460,000 when compared to the 2004 total personal income, excluding farm, of \$ 120,220,000. For Statewide personal income, the total of \$686,943,289,000 for 2004 and \$741,099,703,000 for the year 2004, shows an increase of \$54,156,414,000. This indicates that Haskell County has a personal income showing a rate change of 5.4 percent compared to the statewide income at a rate change of 7.9 percent for the same period. Income from all government and government enterprises for the area was a total of \$17,022,000 for the year 2005. This was an increase of 0.2 percent from the 2004 figure of \$16,981,000. Texas statewide had an increase of 5.7 percent for government income. Military income, excluding federal civilian income, for 2005 was \$505,000 compared to \$456,000 in 2004 for the study area. This was an increase of 10.7 percent compared to a statewide change of no change percent for the same period. For further information link to: <http://www.bea.gov/bea/regional/reis>.

Per Capita Income: Total personal income is a widely used measure of regional economic health while per capita income is generally used to compare the relative well-being of residents across areas (not accounting for differences in area cost of living). The per capita personal income for 2005 was \$26,519 in Haskell County while Texas statewide had a per capita income of \$32,460. For more information on this data, please go to <http://www.bea.gov/bea/regional/reis>.

Government Transfer Payments: The Haskell County region received over \$41,938,000 in transfer of payments in FY2005 which reflected a \$7,541 per capita transfer payment compared to the Texas per capita payment of \$4,194. Transfer payments includes the total amount of government allocations to people who qualify for income assistance. This consists largely of supplemental security income payments, family assistance, general assistance payments, food stamp payments, and other assistance payments, including emergency assistance. For more information on this data, please go to <http://www.bea.gov/bea/regional/reis>.

Residence Adjustment: Some areas function as major employment centers and others serve as "bedroom communities". This means that residents may work in one region but live, pay taxes and spend most of their income in their resident region. The degree to which a regional area serves as a bedroom community can be measured by a "residence adjustment" to the area personal income. The residence adjustment in the Haskell County region was \$6,142 in 2005. By 2006 the adjustment represented an increase to \$8,897. A negative number implies that workers commute into the region to earn income but do not reside there. Growth over time of negative residence adjustments generally implies an eroding tax base for the region. Similarly, a positive figure implies that on balance the region exports jobs and income to residents of other regions. For more information on this data, please go to <http://www.bea.gov/bea/regional/reis>.

Average Weekly Wage: TWC reported an average weekly wage during 3rd quarter 2010 for all covered wages and salaried employment in the Haskell County region to be \$563.36. Average weekly wages for 3rd quarter 2011 was \$599.02, an increase of 6.3 percent. This is compared to an increase of 6.3 percent statewide for the same period of time. The Texas statewide average weekly wage in the 3rd quarter of 2010 was \$931.50. These wage data are the result of the reported quarterly wages and salaries paid by employers divided by 13 weeks. For the most current information, link to: <http://www.tracer2.com/cgi/dataanalysis/AreaSelection.asp?tableName=Industry>

UI Benefits: The region had \$107,907 in Unemployment Insurance benefits paid during calendar year 2008. In the Haskell County region, the average duration before exhausting regular UI benefits in calendar year 2008 was approximately 15 weeks, while the statewide average duration before exhausting regular UI benefits in calendar year 2008 was approximately 13.4 weeks. The most likely interpretation of longer duration times is greater difficulty finding a job. Therefore, duration can serve as a good barometer for local general economic conditions. The average weekly benefits payment for Regular UI in 2008 was \$258.96 for the Haskell County region compared to \$307.5 in Texas statewide.

Personal Income by Place of Residence: Personal income by place of residence, based on the 2000 Bureau of Economic Analysis (BEA) estimates was roughly \$47,202 for the Haskell County region. This compares to \$78,626 statewide. This figure is much higher than the per capita income level because it includes all wage earners living within a single household. Also, income data from BEA will be different than income data from other agencies due to that fact the BEA includes other sources of income such as farm wages, dividends, interest, rent and transfer payments. For more information on this data, please

go to <http://www.bea.gov/region/reis>.

Poverty Population: The U.S. Department of Census estimated a 2002 poverty population for the Haskell County region for people of all ages at 1,145 persons. That figure represents 19.6 percent of the non-institutional population compared to a Texas percentage of 15.4 percent for people of all ages. The estimated number of people under the age of 18 in the study area in poverty was 490 in 1999. This figure was 7.5 percent of all people under 18 in the study area compared to Texas statewide which was 6.0 percent of all people under 18 as estimated in 1999. According to the 2000 Census, the number of families living below poverty status in 1999 were 303 which was 16.9 percent of all families in the study area. This compared to 12.0 percent of all families statewide living in poverty status in 1999. The total number of individuals living below poverty status was 1,367 in 1999 which was 23.2 percent of all individuals in the study area. This compared to 12.4 percent of all individuals living below poverty status statewide. For the most recent Poverty information, see: <http://www.census.gov/hhes/www/saipe/county.html>.

Gross Retail Sales: Income can be viewed in several ways and under different definitions. Per capita income tends to have a direct relationship with the growth of gross sales and most service sector industries in an area. Gross sales for the region estimated by the Texas Comptroller of Public Accounts were \$17,630,808 in the 3rd quarter 2010 which represented an increase of 7.8 percent to \$19,000,894.00 by the 3rd quarter 2011. The statewide change for the same period was an increase of 9.1 percent in gross sales. The total number of reporting outlets for the same period was 61 in the 3rd quarter 2010 and 59 in the 3rd quarter 2011. This region had a decrease of -3.3 percent in the study area compared to the statewide change for the same period of an increase of 4.2 percent. For the most recent Gross Retail Sales information, please see: <http://www.window.state.tx.us/taxinfo/sales/>.

Housing

Household Units and Size: The total number of housing units in 2000 in Haskell County according to the Census was 2,569 with an average household size of 2.3 persons. The average household size for Texas was 2.7 persons for the same period. Home ownership rates for this area was 78.9 percent compared to Texas statewide which had a rate of 63.8 percent. While in Texas statewide the percent of households with persons under 18 years of age in 2000 was 40.9 percent, this study area had a percent of 29.8. The percent of households with persons 65 years of age or older was 19.9 percent in Texas statewide while 41.3 percent of Haskell County had households with individuals 65 years of age and older.

Types of Structures: While Texas had approximately 63.4 percent of the housing units in the category of one detached structures in 2000 according to the census, the study area had approximately 81.5 percent. Mobile homes in the area made up 13.2 percent when compared to a statewide percentage of 9.0 percent. More recently built housing structures in the area shows new development has taken place in the region. The total number of new housing structures built between 1995 and March 2000 was 83 or 2.3 percent in Haskell County compared to 13.2 percent statewide.

Owner and Renter Occupied: According to the 2000 Census, the percent of owner-occupied units with a value of \$100,000 or greater in Haskell County was 2.9 percent compared to 36.7 percent for the state. The percent of renter-occupied units with rent values of \$500 per month or greater was 8.6 percent as compared to the Texas percentage of 60.4 percent. The median home value in Haskell County according to the 2000 census was \$30,600.00 compared to a statewide median value of \$82,500.00. Median rent for the area was \$329.00 compared to \$574.00 for the state. For this area, the total number of renter-occupied housing units was 542 which represented 21.1 percent of all occupied housing units in 2000. This compares to a Texas statewide percentage of 36.2 percent for the same period.

Education

The total number of public independent school districts in Haskell County for the school year 1999-2000 was 4 according to the Texas Education Agency. The overall average daily attendance for the same year was 1,075.

Enrollment: School enrollment data from the 2000 Census showed that there were 1,375 persons in the population who were 3 years of age and older and enrolled in school in the study area during the census collection period. Of this population, the following table shows a breakdown of what types of schools persons were enrolled compared to similar statewide information:

| Type of School | Count | Area Percent | Statewide Percent |
|--------------------------------|-------|--------------|-------------------|
| Nursery school or preschool | 113 | 8.2 | 6.6 |
| Kindergarten | 67 | 4.9 | 5.9 |
| Elementary School (grades 1-8) | 653 | 47.5 | 45.5 |
| High School (grades 9-12) | 452 | 32.9 | 21.9 |
| College or graduate school | 90 | 6.5 | 20.2 |

Educational Attainment: The total number of persons 25 years of age or older who responded to the level of educational attainment during the 2000 Census was 4,314. Of those persons, the following presents a table on various levels of educational attainment for this region compared to statewide percentages:

| Educational Attainment | Count | Area Percent | Statewide Percent |
|-------------------------------|-------|--------------|-------------------|
| Less than 9th Grade | 542 | 12.6 | 11.5 |
| 9th to 12th grade, no diploma | 703 | 16.3 | 12.9 |
| H.S. graduate (inc. equiv.) | 1,576 | 36.5 | 24.8 |
| Some college, no degree | 790 | 18.3 | 22.4 |
| Associate Degree | 80 | 1.9 | 5.2 |
| Bachelor's Degree | 405 | 9.4 | 15.6 |
| Graduate or Prof. Degree | 218 | 5.1 | 7.6 |

Another useful grouping of these statistics shows that the percent of high school graduates or higher was 71.1 percent for the area compared to 75.7 percent for Texas. Also, the percent with bachelor's

degree or higher was 14.4 percent as compared to 23.2 percent for Texas.

Dropout and Attrition Rates: Information from the Texas Education Agency on student dropouts from public schools for 2004-2005 shows that 0 students, grades 7-12, dropped out of school in this study area. This represents a dropout rate of 0.00 percent as compared to a Texas statewide percentage of 0.90 percent of all students who dropped out during this period. Attrition rates are often viewed as measures of the percentage of students that begin high school but do not graduate with a diploma. It is arguably a more reasonable way to view dropouts from an economic viewpoint. One way to view educational progress in a region is to estimate the number of persons who persist to high school graduation as opposed to standard dropout statistics. Attrition rates are calculated by the Intercultural Development Research Association (IDRA). IDRA conducts research and development activities; creates, implements and administers innovative education programs; and provides teacher, administrator, and parent training and technical assistance. The attrition rates for Haskell County during the period 2004-2005 by race and ethnicity were 8 percent for all students, 42 percent for Blacks, 4 percent for Whites, and 13 percent for Hispanics. In order to review the latest Secondary Schools Enrollment and Dropouts information posted on the Texas Education Agency, link to: <http://www.tea.state.tx.us/research/>.

Health

Health Facilities - The number of acute and psychiatric care hospitals in Haskell County as of October 2007 was 1, with an average total beds capacity of approximately 25.0 compared to a statewide ratio of 123.1 beds per hospital according to statistical reports from the Texas Department of State Health Services. Link to <http://www.dshs.state.tx.us> for more data reporting on health care facilities. The Texas State Board of Pharmacy data for October 2007 shows there are 3 licensed pharmacies in the study area. The total number of licensed pharmacies statewide is 5,919. For additional information on Texas Pharmacies, link to the Texas State Board of Pharmacy at <http://www.tsbp.state.tx.us/index.htm>.

Health Practitioners - According to the Texas Department of State Health Services October 2007 report, there were 4 direct patient care and primary care physicians who practiced in the region. The ratio of total persons to each physician in the area was 1,511.5 residents per each physician. This compares to a statewide ratio of 460.5 persons for each physician in Texas. Another way of reporting these figures is by showing the number of physicians as a ratio per 100,000 residents. In this study area, the ratio in direct patient care was 3,023.0 as compared to the statewide ratio of 638.3 in direct patient care physicians per 100,000 population as of 2007. The ratio of physicians in primary care was 3,023.0 compared to a statewide ratio of 1,472.0 physicians in primary care per 100,000 persons in the population statewide. Link to <http://www.dshs.state.tx.us> for more data.

The study area had a total of 20 registered nurses (RN) working in the study area, representing a ratio of 302.3 persons for each RN in the area. The statewide ratio was 152.2 persons for each RN in the state. For the same time period, the ratio of RNs per 100,000 population was 330.8 compared to 657.0 per

100,000 statewide. Link to <http://www.dshs.state.tx.us> for more data.

The number of licensed vocational nurses (LVN) who practiced in the area was 38 representing a ratio of 159.1 persons per each LVN in the area. This compared to 363.8 persons per each LVN statewide. The ratio of LVNs per 100,000 population was 628.5 compared to 274.9 per 100,000 population statewide. See <http://www.dshs.state.tx.us> for a wider variety of Health Professionals and related information.

The Texas Department of State Health Services information for October 2007 also reports that there were 2 dentists in the study area, with a ratio of 3,023.0 persons for each dentist in the area. The ratio of dentists per 100,000 residents was 33.1. By comparison, there was a statewide ratio of 42.8 dentists per 100,000 residents, with a total of 10,151 dentists statewide. See <http://www.dshs.state.tx.us> for a wider variety of Health Professionals and related information.

According to data from the Texas Department of State Health Services for October 2007, there were 9 licensed Emergency Medical Technicians, or EMTs, for the study area; a ratio of 148.9 licensed EMTs per 100,000 residents. The statewide ratio was 218.0 EMTs per 100,000 residents, with a total of 51,718 EMTs statewide. See <http://www.dshs.state.tx.us> for a wider variety of Health Professionals and related information.

Also, according to the October 2007 report from the Texas Department of State Health Services, there were 3 pharmacists in this area, which is a ratio of 2,015.3 persons for each pharmacist. Texas has 18,138 pharmacists statewide, or a ratio of 1,308.2 persons for each pharmacist in the area. The ratio of pharmacists per 100,000 residents was 49.6 compared to 76.4 per 100,000 residents statewide. See <http://www.dshs.state.tx.us> for a wider variety of Health Professionals and related information.

The Texas Department of State Health Services information for October 2007 shows that for the study area there were 0 occupational therapists; a ratio of n/a persons for each occupational therapist. The statewide ratio was 11,072.6 persons for each occupational therapist, with a total of 2,143 occupational therapists statewide. The ratio of occupational therapists per 100,000 residents was n/a compared to 9.0 statewide. See <http://www.dshs.state.tx.us> for a wider variety of Health Professionals and related information.

| 265 | 245 | -7.55% | 1,286,605 | 1,321,803 | 2.74% |

* Includes: Public and Private Hospitals, Medical/Health Offices; Home Health, Nursing, Elderly Residential facilities; Individual/Family, Emergency & Other Relief Svcs., Vocational Rehab. Svcs.
[NAICS: 6211,6212-19,6221-23,6231-33,6239,6241-43]

Due to confidentiality, employment for small areas may be suppressed and reported as zero.

Health Statistics - Some of the leading causes of mortality in Texas include malignant neoplasms or cancer, heart disease, and chronic lower respiratory disease. From information gathered by Texas Department of State Health Services for 2004, the study area had a total of 20 reported deaths from malignant neoplasm cancer. On a statewide level, Texas had 33,836 reported deaths from malignant neoplasm cancer. Texas Department of State Health Services reports that for 2004 there were 31 deaths from heart disease, and 5 deaths from lower respiratory disease in the selected study area. By contrast, Texas statewide had 40,091 deaths from heart disease and 7,387 deaths from chronic lower respiratory disease. See <http://www.dshs.state.tx.us> for a wider variety of Texas health, disease and related information.

Several state agencies collect statistics on health status indicators that can be used to assess the strengths or weaknesses of public health in a local area or community. For this study area, the Texas Department of State Health Services reported for August 2004 there were 0 infant deaths, as compared with a statewide rate of 2,398. See <http://www.dshs.state.tx.us> for a wider variety of Texas health, disease and related information.

The Texas Department of State Health Services reported that for August 2003 there were 3 total teen pregnancies in this area. There were different teen pregnancy rates in the study area depending on race, with 0 for Black teens, 1 for Hispanic teens and 2 for White teens. Statewide rates for teenage pregnancy were 19,730 for total teenage pregnancies, with 3,003 for Black teens, 12,693 for Hispanic teens and 4,034 for White teens. See <http://www.dshs.state.tx.us> for a wider variety of Texas health, disease and related information.

In the Health and Human Services 2003 Data Book, figures show that the number of children under 19 in this area whom were not covered by health insurance is 267, which is 5.5% of the reported population in that age group. The number of uninsured children statewide is 885,999, or 7.1% of the reported population for children under 19. For more information, or to view or download the entire data book, see <http://www.hhsc.state.tx.us>.
